Geological and Geophysical Surveys
Fairbanks, AK 99709

Open File Report 98-582
1998

Done in cooperation with the
International Association of Volcanology and Chemistry of the Earth's Interior (IAVCEI)
and the Catalog of Active Volcanoes of the World (CAVW) Project

This report is preliminary and has not been reviewed for conformity with U.S. Geological Survey editorial standards (or with the North American Stratigraphic Code). Any use of trade, product or firm names is for descriptive purposes only and does not imply endorsement by the U.S. Government.

View to the west across the summit caldera of Mt. Wrangell. The East Crater (foreground), North Crater (steaming) and West Crater (left) are on the rim of the 4x6 km caldera. Mt. Drum is in the right background. Photo by R.J. Motyka.
